# ADRIÁN IVÁN PISCO SOTO

Java full stack web developer | Systems and Informatics Engineering student

chiletedevpath@gmail.com · Portfolio · GitHub · LinkedIn

## PROFILE

Systems and Informatics Engineering student at UTP, trained in Java Fullstack Web Development through Código powered by Tecsup. I develop applications using Java, Spring Boot, React, Next.js and databases. My background in operations, control and monitoring brings discipline, traceability and attention to real needs.

## TECHNICAL SKILLS

**Backend:** Java, Spring Boot, Spring Data JPA, REST APIs.
**Frontend:** JavaScript, TypeScript, React, Next.js, HTML, CSS, Astro.
**Data:** PostgreSQL, SQL Server, MongoDB, Flyway.
**Quality and tools:** JUnit, Mockito, Playwright, OOP, SOLID, design patterns, Git, GitHub, Maven, Postman and Docker.

## PERSONAL PROJECTS

**ChiSabes | Personal finance**
PWA and API using Next.js, Spring Boot and PostgreSQL. Accounts, balanced transactions, obligations, budgets and traceable reversals. Frontend, backend, authentication and data modeling. Functional MVP with operational closure pending.

**REMINEXA | Personal reminders**
React/Vite, Spring Boot and PostgreSQL. Reminders, history, private attachments and email through Resend. Daily processing through a Cloudflare Worker. V1 pilot with documented scope.

**Chilete DevPath Web | Personal platform**
Design and maintenance of an Astro website with bilingual routes, resources, projects and Worker-based contact. Content organization and responsible publishing criteria.

## OPERATIONS EXPERIENCE

**Control and Monitoring Center Operator | J&V Resguardo** · Jul 2020–present
System monitoring, incident recording and follow-up, daily reports and coordination of alert response.

**Team Supervisor | Huayna** · Jul 2018–Jul 2020
Staff supervision, coordination of requests, protocol checks and operational reporting.

**Military Instructor | Escuela Militar de Chorrillos** · Jan–Jul 2018
Instruction in procedures and discipline; support for activity planning and coordination.

## EDUCATION AND RECOGNITION

**Systems and Informatics Engineering** · Universidad Tecnológica del Perú · Mar 2024–present.
**Java Fullstack Web Development** · Código powered by Tecsup · 240 hours · Nov 2025–May 2026; certificate Jun 2026.
**CCNA Introduction to Networks** · Cisco Networking Academy / UTP · 2026.
**Basic, Intermediate and Advanced Excel** · Universidad Nacional de Trujillo · 2024.
UTP Academic Excellence Scholarship · semesters III and IV, 2025.
Virtual academic mobility in Software Architecture · Fundación Universitaria Católica del Norte, Colombia · 2026-2.
